PART 2

Why this ad format works

Both scripts follow the structure of two proven manifestation ads, rewritten around your story and your audience.

Format A · Talking head with dream visuals

1. **Call out the viewer:** “Are you…? Tired of…?”
2. **Show the dream:** her own income, standing on her own
3. **Name the method:** manifestation makes this possible
4. **Outcome montage:** career clarity, potential, income
5. **One strict rule:** women must be independent
6. **Community invite,** then the workshop poster and call to action

Format B · Cinematic struggle to success

1. **Stack the struggles:** “As a woman, facing challenges?”
2. **Qualify:** “Then this video is for you.”
3. **Empowering belief:** women naturally manifest powerfully
4. **Authority card:** name, title and proof
5. **Tangible desires:** promotion, car, home
6. **Status payoff:** respect and wealth, then Register Now

Two-line captions

A small lead-in line, then one big highlighted keyword, changing every 2 to 3 seconds.

Constant movement

Cut between you and dream visuals every 3 to 5 seconds.

“That's me” first

Viewers say yes two or three times before manifestation is mentioned.

Always-on title

Your name and title stay on screen in every talking shot.

Your strongest edge: you have lived these struggles as a woman and still rose in business and in life. Both ads include a short line of your story, “I walked this road too”, which no other coach can say for you.

Notes for the video team

⚠ No movie clips

Use licensed stock footage or AI clips with the same mood. Film scenes can get the ad rejected or muted for copyright.

⚠ No income promises

Facebook restricts claims like “earn ₹X” or “double your salary”. The scripts say “grow your income” and “attract” on purpose.

✦ Name on every shot

Keep the title bar and the “Lakshmi Rising ✦” neon sign visible whenever you are on camera.

✦ One AI character

Use the same woman, in a pastel saree and blazer, across all the AI visuals for continuity.

✦ Editing pace

A cut every 2 to 4 seconds, captions synced word by word, a soft whoosh on each visual, uplifting music.

✦ Test both

Run both ads to the same audience. Then try Ad 1 opening with “Career break eduthu veetla irukkeengalaa?” for career-break women only.
