Family Health Reset 3 Day Challenge

The Walk-In Blueprint: how every family moves from an ad to your wellness centre — and stays with you

DAY 1	DAY 2	DAY 3
Live Zoom · 1 hour	Live Zoom · 1 hour	Centre visit · free family health check

Prepared for: Coach Muthu, Wellness Centre

Prepared by: Prabhuraj, CEO, ProfitSoul

Date: 22 October 2026 · **Cohort 1 starts:** Thursday 29 October 2026

How to read this document

Every colour in this document means something, so you can find what you need at a glance.

Colour	Means	Why this colour
Slate	Before Day 1 — registration and welcome	Steady, neutral: the preparation stage
Teal	Day 1 — live Zoom	Calm and clarity: the brain learns best when it feels safe
Marigold	Day 2 — live Zoom and slot booking	Energy and optimism: the day we ask for action
Terracotta	Day 3 — the centre visit, and Hormozi offer notes	Warmth, earth, family — and action
Leaf green	Strategy, health and growth sections	Health and trust
Purple	Neuroscience notes	The colour of the mind
Deep blue	Follow-up and the system we run	Reliability and trust

01 The plan on one page

What we are building, and why it works

Coach Muthu, you told us exactly what you need: **5 to 10 walk-ins every day** from a 5–10 km radius, a **follow-up system that does not depend on you remembering**, and people who can grow into **associates**. You also told us that a human touch makes "a big, big difference". This blueprint is built around those four things.

The idea is simple. We do not sell a product, a shake or a programme in the ads. We invite working families to a **free 3-day experience** led by you. Two mornings on Zoom build trust. On the third day the **whole family** walks into your centre for a free BMI, BMR and health check. One registration becomes three or four walk-ins, and the person who decides the family budget is standing in your centre.

The journey every family takes

Meta ad	WhatsApp	Welcome call	Day 1 Zoom	Day 2 Zoom	Day 3 Centre	30-day
Dog · Fish · City	9-question filter	Within 15 min	Why we are tired	Plate + booking	Family check	Paid programme

What	The plan
Name	Family Health Reset — 3 Day Challenge
Who it is for	Working families within 10 km of the centre: IT employees, working professionals, students and their parents
Day 1 and Day 2	Live Zoom, 1 hour each, in the morning (suggested 6:30–7:30 AM — please confirm), joined from home
Day 3	Visit to the centre: free BMI, BMR and full health check for the whole family, a 10-minute one-on-one with you, and a short recording
The limit	Free for the first **10 families** each week. After that, **₹2,000** per family
The rhythm	A new cohort and a new WhatsApp group every week
The real goal	Paid 30-day enrolments and future associates — walk-ins are the path, not the finish line

What is inside

1. The Grand Slam Offer — why people will say yes (Hormozi)
2. The neuroscience behind every step
3. Before Day 1 — the welcome and the human call
4. Day 1 — what to say, minute by minute
5. Day 2 — the family plate and live slot booking
6. Day 3 — the centre experience and the one-on-one
7. The show-up system — making sure families actually come
8. The engagement engine — keeping the group alive
9. After Day 3 — the 30-day follow-up
10. The three Meta ads — final scripts
11. The system we run, the numbers we track, and what we need from you

02 The Grand Slam Offer

Alex Hormozi: make the offer so good people feel foolish saying no

Hormozi says people do not buy products, they buy the value they believe they will get. He measures that value with one equation. Every part of this challenge is designed to push each part of it in the right direction.

Value lever	What it means	How the challenge pushes it
Dream outcome ↑	The result the family really wants	A healthy family that stays out of hospital — and finally knowing where every member stands today
Perceived likelihood ↑	Do they believe it will work for them?	Your 10 years of experience; real local clients (the 57-year-old who walks again); seeing the centre and their own numbers
Time delay ↓	How long until they see something?	A first habit win on Day 1 morning; their family's numbers in hand on Day 3
Effort and sacrifice ↓	How hard is it for them?	Zoom from home for 1 hour; no diet, only swaps; the whole family checked in one 45-minute visit; free

HORMOZI LENS | the offer logic

Value = (Dream outcome × Perceived likelihood) ÷ (Time delay × Effort and sacrifice).

Most wellness offers push only the dream outcome ("lose 10 kg"). We push all four. That is why a free challenge can feel more valuable than a paid one.

The name: why "Family Health Reset — 3 Day Challenge" works

Hormozi's MAGIC formula for naming an offer: a **M**agnetic reason, the **A**vatar, the **G**oal, the **I**nterval of time and a **C**ontainer word.

Part	In our name
Avatar	**Family** — the buyer is the family, not one person
Goal	**Health Reset** — a fresh start, not a punishment
Interval	**3 Day** — short enough to say yes today
Container	**Challenge** — something you complete and win
Magnetic reason	The free family check and the 10-family limit

The offer stack

We show families everything they get and what each part is worth. The values below are our suggestions; please adjust them to your real prices.

What the family gets	Value
Day 1 — live Zoom with Coach Muthu, 1 hour: "Why is our family tired?"	₹999
Day 2 — live Zoom with Coach Muthu, 1 hour: "The Family Plate"	₹999
Day 3 — full health check for up to 4 family members: BMI, BMR, body fat, visceral fat, muscle, metabolic age (as your analyser reports)	₹2,000
Family Health Score Card — every member's numbers on one card, on WhatsApp the same day	₹299
10-minute one-on-one with Coach Muthu on the family's results	₹1,000
Premium WhatsApp group with daily tasks and support	₹499
3-day habit tracker and completion certificate	₹199
Healthy breakfast tasting at the centre	₹200
Total value	**₹6,195**
First 10 families each week	**FREE**
After 10 families	**₹2,000 per family**

Scarcity, urgency, bonuses and guarantee

Element	How we use it	The honest reason
Scarcity	Only 10 free family slots each week	Your one-on-one time is limited: 10 families is what you can serve well
Urgency	Registration for each cohort closes Wednesday 9 PM	The group starts Thursday morning
Bonus 1	Bring one more family → they get a priority slot next week	Referrals are the cheapest walk-ins
Bonus 2	The family with the most Family Points wins a healthy hamper	Rewards the families who engage most
Guarantee	For the ₹2,000 version: attend all 3 days, and if you feel it was not worth it, we return your ₹2,000	A conditional guarantee removes risk and rewards commitment

> **HORMOZI LENS | the offer logic**
>
> **Keep the promise of the limit.** If the ads say "10 families, then ₹2,000", the 11th family must actually see ₹2,000. The day people notice the limit is not real, every ad loses its power.
>
> **Give away the secrets, sell the implementation.** The 3 days give real value for free. The 30-day programme is where you implement it with them. People pay for help doing it, not for being told what to do.

03 The neuroscience behind every step

How the brain decides to trust, to act and to show up

People decide with feeling first and justify with logic later. The 12 principles below are the reason each step in this blueprint exists. Wherever you see a purple box, it explains which principle is at work.

Principle	What the brain does	Where we use it
1. Curiosity gap	An open question creates a small tension the brain wants to close	Ads: "உங்க BMI என்ன?" · Day 1: a sample Score Card with names hidden
2. Reward and dopamine	Small, certain wins teach the brain "this works — do it again"	One easy family task a day, Family Points, shout-outs in the group
3. Loss aversion	Losing something feels about twice as strong as gaining it (Kahneman and Tversky)	10 free slots, then ₹2,000; slots visibly filling during Day 2
4. Endowment effect	We value what already feels like ours	A slot booked in the family's name; "your Score Card is being prepared"
5. Commitment and consistency	After a small yes, we act to stay consistent (Cialdini)	Type FAMILY in chat · post the task photo · type your Saturday plan
6. Implementation intentions	A when–where–who plan makes people far more likely to follow through (Gollwitzer)	Day 2: "சனி 8:30 — நான், wife, அம்மா"
7. Trust chemistry	Faces, voices and personal stories are linked with oxytocin and trust (Paul Zak's research)	Coach on camera in every ad; his story on Day 1; personal voice notes
8. Social proof	We copy people who are like us	Wins wall, client stories, local families in the group
9. Open loops (Zeigarnik)	Unfinished stories stay on the mind	Day 1 ends with Day 2's reveal; Day 2 ends with Saturday's numbers
10. Peak–end rule	We remember an experience by its best moment and its ending (Kahneman)	Peak: the Score Card reveal · End: a gift certificate and a family photo
11. Self-relevance	Information about "me" gets first claim on attention	Area names, family names, their own numbers
12. Cognitive ease	The brain avoids effort and confusion	One action per ad, one task per day, one next step per session

NEUROSCIENCE | why the brain says yes

The one sentence to remember: a family comes to the centre when three things are true in their mind — they trust you, they are curious about their numbers, and the visit already feels like theirs. Every day of the challenge builds one of these.

04 Before Day 1 — the welcome

From registration to the first session

The first hours after registration decide whether a lead becomes a participant. Interest is highest the moment someone taps the ad, and it fades fast.

When	What happens	Who
Minute 0	Family taps the ad and lands in WhatsApp. A 1-minute chat asks 9 questions, scores the lead and sends the group link	Automation
Within 15 minutes	Welcome call: personal, warm, 2–3 minutes (script below)	Telecaller
Within 24 hours	Coach Muthu's 60-second welcome video in the group — recorded once, reused every week	Coach (once)
Every day until Day 1	One warm-up task: "Office desk-ல உங்க water bottle photo போடுங்க"	Team
Day before, 7 PM	"நாளைக்கு காலைல Day 1!" + Zoom link + time	Automation
Day 1, 30 min and 5 min before	"30 minutes" and "We are live — join now"	Automation

HORMOZI LENS | the offer logic

Speed to lead. Hormozi's data in $100M Leads: the faster you contact a new lead, the higher the conversion. A call within minutes beats a call the next day by a wide margin. Our target is 15 minutes during 9 AM–8 PM.

The welcome call script (2–3 minutes)

Step	Telecaller says
Open	"வணக்கம், [பெயர்]? நான் [caller name], Coach Muthu-வோட Family Health Reset team-ல இருந்து பேசறேன். ரெண்டு நிமிஷம் பேசலாமா?"
Welcome	"நீங்க 3 Day Challenge-க்கு register பண்ணிருக்கீங்க — ரொம்ப சந்தோஷம். உங்கள personal-ஆ welcome பண்ணதான் call பண்ணேன்."
Group	"WhatsApp group-ல join ஆயிட்டீங்களா?" (If not, send the link during the call.)
Schedule	"Day 1, Day 2 — காலைல Zoom-ல ஒரு மணி நேரம், வீட்ல இருந்தே. அந்த நேரம் உங்களுக்கு OK-வா?"
Family	"3rd day centre-ல உங்க full family-க்கும் free-ஆ BMI, BMR health check பண்றோம். வீட்ல யாரெல்லாம் வருவாங்க?"
One question	"இந்த 3 நாள்ல உங்களுக்கு முக்கியமா என்ன கிடைக்கணும்?" — write the answer word for word. Coach uses it on Day 3.

Step	Telecaller says
Close	"Super. Day 1-க்கு முன்னாடி reminder வரும். ஏதாவது doubt-னா இதே number-க்கு message பண்ணுங்க. நன்றி!"

Handling the three common questions

- **"Free-ஆ? என்ன catch?"** — "Catch எதுவும் இல்லை. Coach Muthu நம்ம area families-க்கு ஒவ்வொரு வாரமும் இதை பண்றாரு. முதல் 10 family-க்கு மட்டும் free. Numbers பார்த்துட்டு, plan வேணும்னா மட்டும் பேசலாம்."
- **"இது Herbalife-ஆ?"** — Answer honestly: "ஆமா, Coach Muthu ஒரு Herbalife wellness coach. ஆனா இந்த 3 நாள்ல எந்த product-ம் வாங்க சொல்ல மாட்டோம் — habits, numbers, plan மட்டும் தான்." Hiding it would break the trust we are building.
- **"Zoom-க்கு time இல்லை."** — "பரவாயில்லை. 3rd day family health check-க்கு மட்டும் slot book பண்ணலாமா?" The walk-in is still the goal.

> **NEUROSCIENCE | why the brain says yes**
> A human voice in the first hour turns "an ad I clicked" into "a person who called me". The brain treats a promise made to a person far more seriously than a promise made to a form — that is commitment and consistency at work, and it is the human step you asked for.

05 Day 1 — Live Zoom, 1 hour

"நம்ம family ஏன் tired-ஆ இருக்கு?" — Why is our family tired?

The one job of Day 1: make them trust you as a person, make them curious about their family's numbers, and get a soft "yes" to the centre visit. Day 1 is not a lecture. If the session is excellent but nobody types FAMILY, it has failed.

What to convey

1. **I am one of you.** "நானும் உங்கள மாதிரி ஒரு சாதாரண ஆள் தான். 10 years-ஆ families-ஐ healthy-ஆ மாத்திருக்கேன்." Trust in the person comes before trust in any plan.
2. **Your tiredness is not your age.** It comes from four leaks you can fix: late sleep, too little water, a skipped or late breakfast, and eight hours of sitting.
3. **You do not know your family's real numbers — and that is the risk.** Problems show up in numbers long before they show up in a hospital.
4. **Small daily habits beat big diets.** We will not ask you to starve or buy anything.
5. **Saturday you will see your family's numbers.** This is the seed for Day 3.

> **DO NOT | on Day 1**
> Do not sell any product, mention programme prices, or talk about income or the business opportunity. Day 1 is only about trust and curiosity.

The run sheet — minute by minute

Time	Segment	What Coach Muthu does and says	Why it works
6:20	**Waiting room**	Soft music. Slide: "உங்க area பெயரை chat-ல type பண்ணுங்க." The team greets every name in chat.	Their own area name grabs attention; a busy chat shows a real crowd
0–5 min	**Welcome by name**	Read 8–10 area names aloud. "இன்னைக்கு ஒரு மணி நேரம் உங்க family-க்கான நேரம்." One slide with the 3-day map: Day 1 why · Day 2 how · Day 3 your numbers.	Knowing what is coming lowers uncertainty — the brain relaxes and listens
5–15	**Your story**	Where you started, your turning point, 10 years, why you do this. Then the 57-year-old client (with her consent): she could not walk, now she walks to the centre.	Personal stories are linked with oxytocin and trust; people buy the person before the plan
15–27	**The 4 energy leaks**	Poll: "எந்த நேரத்துல அதிகமா tired-ஆ இருக்கீங்க?" (Morning · 11 AM · 4 PM · Night). Explain the 4 leaks. Ask: "உங்க வீட்ல எத்தனை leak இருக்கு? Chat-ல number போடுங்க."	Doing (polls, typing) keeps attention far higher than listening; naming their own problem is the first small yes
27–40	**Your hidden numbers**	BMI = weight for your height. BMR = "உங்க body-ஓட daily fuel bill". Why BMI alone misleads: same weight, very different body fat. Show a sample Family Score Card with names hidden. "Hospital-க்கு போற முன்னாடியே numbers தெரிஞ்சா, நிறைய தடுக்கலாம்."	Curiosity gap: they see the card but not their own numbers — the brain wants to close that gap

Time	Segment	What Coach Muthu does and says	Why it works
40–48	**Today's family task**	Each family member keeps one water bottle in sight all day, and the family takes a 10-minute walk together after dinner. Post one photo in the group by 9 PM.	A small, certain win starts the reward loop; doing it as a family makes it social
48–55	**The Day 3 seed**	"சனிக்கிழமை உங்க full family-ஓட real numbers பார்க்கலாம் — completely free, முதல் 10 family-க்கு மட்டும்." Ask everyone to type FAMILY and the number of members. The telecaller follows up every FAMILY reply after the session.	A small public yes makes the bigger yes (booking) much more likely
55–60	**Open loop close**	"நாளைக்கு: 4 மணி tiredness-ஐ குறைக்கிற 3 food swaps. அப்புறம் சனிக்கிழமை 10 slots-ஐ live-ஆ open பண்றேன். Same time, same link."	An unfinished story stays on the mind and brings them back for Day 2

> **NEUROSCIENCE | why the brain says yes**
> **Why the Score Card is shown with names hidden:** the brain finds an incomplete picture uncomfortable. Seeing exactly what they will receive, but not their own numbers, creates a pull towards Saturday that no amount of persuasion can create.

Day 1 success measure

At least **40% of the group attends**, and at least **half of the attendees type FAMILY** in the chat.

06 Day 2 — Live Zoom, 1 hour

"The Family Plate" — and the live slot booking

The one job of Day 2: a booked and confirmed Day 3 slot for every family that can come. The booking happens live, inside the session, at minute 40 — not at the end, because Zoom attendance drops in the last 15 minutes.

What to convey

1. **People like you are already doing it.** Read out last night's wins and show the photos.
2. **Health is a swap, not a sacrifice.** Three food swaps that fit a Tamil working family's day.
3. **It works for people like you.** One real client, live or on video.
4. **Saturday is easy, safe and short.** Show exactly what happens at the centre.
5. **Book now — 10 families only.** The live booking.
6. **This is your gift to your family.** The gift close.

The run sheet — minute by minute

Time	Segment	What Coach Muthu does and says	Why it works
0–5 min	**Wins wall**	Read 5–8 names and show their photos from last night's task. "Raja family — 4 பேரும் walk போனாங்க!"	Seeing peers act makes action feel normal; people who are recognised come back
5–25	**The Family Plate**	A typical local day: rushed breakfast, heavy rice lunch, 5 PM tea and bajji, 10 PM dinner. The plate method: half vegetables, a quarter protein, a quarter rice or chapati. Three swaps: (1) protein at breakfast, (2) 5 PM bajji → sundal or fruit, (3) dinner before 8:30 PM. "Diet இல்லை — swap தான்."	Low effort, high value (Hormozi). Swaps avoid the brain's resistance to giving things up
25–33	**Real people**	One client joins live or on a 60-second video — for example, the client who travels 40–50 km three times a week. Ask: "முதல் நாள் centre-க்கு வந்தப்போ எப்படி இருந்தீங்க?"	Perceived likelihood: "someone like me did it"
33–40	**What Saturday looks like**	A 60-second phone video of the centre: the welcome board, the analyser, the Score Card, the breakfast tasting, your chair. "Needle இல்லை, pain இல்லை, 45 நிமிஷம் தான். Kids, அப்பா, அம்மா எல்லாரும் வரலாம்."	Fear of the unknown is the biggest reason people do not show up. A place you can picture feels safe
40–52	**LIVE SLOT BOOKING**	Slots on screen. Booking link and the keyword SLOT for WhatsApp. The telecaller confirms in real time while you read names as slots fill: "8:30 slot — Priya family confirmed!" Ask each family to type their plan: "சனி 8:30 — நான், wife, அம்மா."	A when–where–who plan drives follow-through. Slots visibly filling uses loss aversion honestly
52–58	**The gift close**	"இந்த 3 days உங்க family-க்கு நீங்க கொடுக்கற gift. நான் health-ஐ gift-ஆ உங்க family-க்கு திரும்ப தரேன்." Tonight's task: phone away 30 minutes before bed.	The gift makes them the hero of their family's story — a powerful identity

Time	Segment	What Coach Muthu does and says	Why it works
58–60	**Close**	"Slot book பண்ணாதவங்களுக்கு team இன்னைக்கு call பண்ணுவாங்க. சனிக்கிழமை பார்க்கலாம்!"	One clear next step

HORMOZI LENS | the offer logic

Show the slots filling. Hormozi calls it scarcity and urgency, and it only works when it is real. Ten families is a real limit set by your one-on-one time. When families see "4 slots left", the slot becomes something they could lose.

NEUROSCIENCE | why the brain says yes

Why we ask them to type "சனி 8:30 — நான், wife, அம்மா": writing down when, where and who turns an intention into a plan. Research on implementation intentions shows this simple step makes people much more likely to follow through — and it also puts the spouse and parents into the plan.

Day 2 success measure

All **10 family slots booked** by the end of Day 2, with a waitlist of at least 3 families.

07 Day 3 — The centre visit

Free family health check, the one-on-one, and the recording

The one job of Day 3: every family leaves with its numbers, a good feeling, a recorded moment and a clear next step. We design the visit like an event, not an appointment.

Slot plan for 10 families

- **Saturday morning:** five 45-minute slots at 7:00, 7:45, 8:30, 9:15 and 10:00 — **two families per slot** = 10 families.
- **Sunday morning:** the same slots, for rescheduled families, waitlist families and paid (₹2,000) families.
- **Why only two families per slot:** your one-on-one takes 10 minutes per family. Two families fill 20 of the 45 minutes, so you never rush and never run late — both of which kill the close.

The family's journey through the centre

Station	Time	What happens	Why it works
1. Welcome	3 min	A board reads "Welcome, [Family name] family!" The team greets them by name. Consent form for health data, photos and video. Children get a small sticker.	Being expected by name makes the place feel like theirs
2. Measurement	12 min	Height, weight and the analyser for every member: BMI, BMR, body fat, visceral fat, muscle and metabolic age, as your analyser reports them.	Nothing is more self-relevant than your own numbers — attention peaks
3. Score Card reveal	5 min	A team member explains each member's numbers on one printed card. Celebrate one good number first, then name one number to work on. The card is also sent on WhatsApp.	This is the PEAK of the peak–end rule. Starting with a good number lowers defensiveness
4. Proof wall	3 min	A wall of client stories with photos and short quotes (with consent). No before-and-after body shots.	Social proof just before the decision
5. Breakfast tasting	5 min	A healthy breakfast sample while they wait for you.	Reciprocity, and a pleasant taste memory tied to the place
6. One-on-one with Coach	10 min	The CLOSER conversation (below).	The decision happens in person, after three days of trust
7. Recording and photo	3 min	20–30 seconds on camera: "இன்னைக்கு உங்களுக்கு surprise ஆன விஷயம் என்ன?" A family photo holding the Score Card. A pet corner for families who bring their dog.	Saying it aloud strengthens their own commitment; the footage becomes next week's ad
8. Gift exit	2 min	A "Family Health Reset — Completed" certificate, a Google review QR code and a referral card: "அடுத்த வாரம் ஒரு family-ஐ கூட்டிட்டு வாங்க — அவங்களுக்கு priority slot."	This is the END of the peak–end rule: they leave with a gift, not a bill

> **NEUROSCIENCE | why the brain says yes**
>
> **Peak–end rule:** people do not remember a visit minute by minute. They remember its best moment and how it ended. We put the peak at the Score Card reveal and end with a gift and a photo, so the memory they take home — and tell their friends about — is a warm one.

The one-on-one: Hormozi's CLOSER framework

Ten minutes, six steps. You do most of the listening; the family does most of the talking.

Step	Purpose	What Coach Muthu says
C — Clarify	Why are they here?	"இன்னைக்கு numbers பார்த்துட்டீங்க. உங்க family-ல யாருக்காக நீங்க அதிகமா கவலைப்படறீங்க?"
L — Label	Name the problem in their words	"So [அம்மா]-வோட sugar risk-உம், உங்க 4 மணி tiredness-உம் தான் main. சரியா?" Use the words the telecaller wrote down.
O — Overview	What have they tried before?	"இதுக்கு முன்னாடி என்ன try பண்ணீங்க? ஏன் continue ஆகலை?"
S — Sell the vacation	Paint the result, not the process	"30 days கழிச்சு, காலைல energy-யோட எழுந்து, family-யோட walk போய், re-check-ல numbers improve ஆனதை பார்க்கறீங்கன்னு imagine பண்ணுங்க."
E — Explain away concerns	Handle the real objection	Time: "தினமும் 20 நிமிஷம் போதும்." Money: "ஒரு hospital visit செலவை விட குறைவு." Spouse: "அவங்களும் இங்க தான் இருக்காங்க — சேர்ந்து decide பண்ணலாம்."
R — Reinforce	Make them feel good about deciding	"Great decision. Monday காலைல உங்க first check-in. நான் personal-ஆ message பண்றேன்."

The offer ladder at the one-on-one

- **Main offer:** the 30-day challenge (price set by Coach Muthu).
- **If not ready for 30 days:** the 10-day programme with breakfast and personal coaching.
- **If not ready to buy at all:** book the free Day-30 family re-check now, before they leave.
- **Associate conversation:** only for families tagged "interested in part-time coaching" in the chat. One sentence at the end: "நம்ம members-ல சிலர் part-time-ஆ மத்தவங்களுக்கும் coach பண்றாங்க. எப்போ வேணும்னாலும் கேளுங்க." No pitch.

Day 3 kit checklist

- Analyser charged and calibrated; height tape or stadiometer
- Printed consent forms and blank Score Cards
- Welcome board and marker; children's stickers
- Phone, tripod, clip-on mic and ring light for the recording corner
- Breakfast tasting supplies
- Printed slot list with family names, family size, lead score and the telecaller's notes
- Certificates, Google review QR and referral cards

- 30-day and 10-day programme price sheet and payment QR
- Pet corner: water bowl and a "Bruno came too!" photo board

08 The show-up system

12 steps that make sure families actually walk in

A booked slot is a promise, not a visit. Most no-shows are not "no" — they are forgetfulness, a busy morning, or a little fear of the unknown. Each step below removes one of those reasons.

When	Action	Why it works
Within 15 min of registering	Telecaller welcome call	Speed to lead: interest is highest in the first minutes
On booking	Confirmation with family name, date, time, Google Maps pin and a landmark	Specific details make the visit real in the mind
On booking	"உங்க family Score Card உங்க பெயர்களோட ready ஆகுது"	Endowment: something with their names on it is already theirs
On booking	Ask for the spouse's number on the booking	Two people remember better than one, and it becomes a family promise
Day 2, live	Families type their plan: when, where, who	Implementation intentions raise follow-through
Day 2 evening	30-second voice note from Coach: "உங்க family-க்காக 8:30 slot ready"	A personal voice is much harder to ignore than text
Evening before	Telecaller confirmation call: "யாரெல்லாம் வர்றாங்க?"	Saying it aloud again re-commits them
Evening before	"What to bring": comfortable clothes, a light breakfast, any medical reports, the whole family — and the dog!	Preparing for an event increases investment in it
Morning, 2 hours before	Reminder with the map	Removes the last bit of friction
When the 10 slots fill	"10 slots full — 4 families waiting" in the group	Honest scarcity makes a booked slot feel more valuable
15 minutes after a missed slot	Rescue call: "உங்க slot 10:30 வரை hold பண்ணிருக்கோம்"	Most no-shows are delays, not decisions
At the centre	Show-up earns 50 Family Points	Rewards the single most important action

NEUROSCIENCE | why the brain says yes

Three fears quietly cancel visits: "Will it hurt?", "Will they force me to buy?", and "Where exactly is it?" The Day 2 video answers the first, your honesty on Day 1 and 2 answers the second, and the map, landmark and reminders answer the third.

09 The engagement engine

Keeping the WhatsApp group alive for 3 days

A quiet group is a dying group. The group should feel like a small, friendly competition between families, with you as the coach on the sideline.

Family Points

Action	Points
Join the WhatsApp group	10
Attend Day 1	20
Post the daily task photo	10 per day
Attend Day 2	20
Book a Day 3 slot	30
Show up at the centre	50
Each extra family member who comes	10 each
Refer another family who registers	50

The family with the most points wins a healthy hamper and is featured in the group and on your WhatsApp status (with consent).

The group calendar

Day	Morning	During the day	Night
Joining day	Welcome video from Coach	Warm-up task: water bottle photo	Reminder of the Day 1 time
Day 1	Zoom link 15 minutes before	Task photos; the team replies to every one	Shout-out to the top 3 families
Day 2	Zoom link 15 minutes before	"Slots left" updates; booking reminders	Gift message and the bedtime task
Day 3	"See you today" + map	Photos from the centre (with consent)	Thank-you message and Score Cards

Group rules

- One task a day, posted at 7 AM — never more.
- Every photo gets a reply the same day. Recognition is the follow-up.
- Only admins share links or forwards.
- Coach Muthu posts one 2-minute voice note every day.
- One group per weekly cohort, named like "Family Health Reset — Cohort 01".

NEUROSCIENCE | why the brain says yes

Points, shout-outs and replies are small rewards. Small, frequent rewards build habits faster than one big reward at the end — the brain learns from what is rewarded now.

10 After Day 3 — the 30-day follow-up

The follow-up you said was missing

Families who do not enrol on Day 3 are not lost — they are not ready yet. Most of your future enrolments will come from this follow-up.

When	Action	Who
Same evening	Score Card on WhatsApp + a 30-second thank-you voice note	Automation + Coach
Day +1 to +3	Call every family that did not enrol: "Numbers பத்தி ஏதாவது doubt இருக்கா?" A question is an opening	Telecaller
Day +3	Invite to the alumni group: one health tip a week	Automation
Day +7	Referral nudge: "அடுத்த வாரம் ஒரு family-ஐ கூட்டிட்டு வாங்க — priority slot"	Automation
Day +14	A personal voice note from Coach with one tip based on their numbers	Coach
Day +30	Free family re-check at the centre — a second walk-in from the same family, and the easiest moment to enrol	Telecaller books
No-shows	Rebooked to next week with a priority slot	Telecaller

HORMOZI LENS | the offer logic

Every family that completes the challenge becomes a source of referrals, testimonials and future clients. The cost of acquiring them was paid once; the follow-up is how you get paid many times.

11 The three Meta ads — final scripts

Dog · Fish · City — recorded with Coach Muthu

All three ads follow the same rules: Coach Muthu is on camera within the first 2 seconds, the location is called out at the start, one pet or place carries one sharp insight, and every ad ends with the same offer and the centre's location.

> **PLEASE SEND BEFORE THE SHOOT**
>
> **[Area]** — the area name we call out · **[landmark]** — a landmark near the centre · For Ad 3: **[ஊர்]** city name, a famous **[landmark]**, the busiest **[road name]**, a famous **[food spot]**, and a morning-walk park.

Shooting rules for all three

- Vertical 9:16, phone on a tripod or gimbal, natural morning light. Coach's own voice — no voice-over.
- Tamil captions burned in; most people watch without sound.
- Shoot 3 takes of the first line; the first 2 seconds decide whether people keep watching.
- Text strip for the offer: Day 1 Zoom · Day 2 Zoom · Day 3 Centre.
- Button on every ad: **Send WhatsApp message**.

Ad 1 — Dog: "உங்க நாயோட weight தெரியும். உங்க weight?"

The insight: we know our dog's weight, vaccination date and food chart, but not our own BMI or our mother's. That small sense of guilt moves people to act. **Where:** the centre entrance or a nearby park; Coach kneels beside a friendly dog with a weighing scale on the floor.

Time	On screen	Coach Muthu says
0–2s	Coach kneeling beside the dog, looking into the camera	"[Area] மக்களே, ஒரு நிமிஷம்!"
2–6s	Dog steps onto the scale, tail wagging. Hook text: உங்க நாயோட weight தெரியும். உங்க weight?	"இவன் oda weight 18 kg. Vaccination date, food chart, walk timing — எல்லாமே நமக்கு தெரியும்."
6–12s	Coach looks straight into the camera	"ஆனா ஒரு கேள்வி. உங்க BMI என்ன? உங்க அம்மாவோட BMR? உங்க wife-ஓட body fat?" (short pause) "தெரியாதுல்ல?"
12–19s	Coach strokes the dog's head	"Namma வீட்டு Dog ah இவ்வளவு கவனமா பாத்துக்கிறோம். ஆனா நம்மளையும் நம்ம family-யையும்?"
19–32s	Coach stands. Text strip: Day 1 Zoom · Day 2 Zoom · Day 3 Centre	"அதுக்கு தான் Family Health Reset 3 Day Challenge. First 2 Days Zoom-ல morning ஒரு Hour, வீட்ல இருந்தே attend panalam, Namma family hospital visit illma eruka yana panunanum nu full roadmap yanoda 10 years wellness experience eruthu train paniruva, 3rd day நம்ம centre-க்கு வாங்க — உங்க full family oda BMI, BMR, full health check. Completely free."

Time	On screen	Coach Muthu says
32–40s	The dog barks; Coach laughs. Text: Only 10 families · Free	"இவனும் வரலாம்! கீழே button-ஐ click பண்ணி Register panuga Premium WhatsApp group-ல Join பண்ணுங்க. But இந்த Opportunity only for 10 family ku மட்டும் thaa after minimum 2000 charge pana porom, so ipave register panikonga, ungala namma center meet panura. நம்ம centre [Area]-ல [landmark] பக்கத்துல தான் இருக்கு."

Ad 2 — Fish: "Fish-க்கு கூட food rule இருக்கு. உங்களுக்கு?"

The insight: everyone who keeps fish knows the rule — correct food, clean water, correct timing — yet we break it for our own bodies. It also connects to the water task inside the group. **Where:** the aquarium at the centre or at a home; close-ups of the fish, Coach standing beside the tank.

Time	On screen	Coach Muthu says
0–2s	Coach beside the aquarium, looking into the camera	"[Area] மக்களே, ஒரு நிமிஷம்!"
2–6s	He holds a pinch of fish food above the tank, then stops. Hook text: Fish-க்கு கூட food rule இருக்கு. உங்களுக்கு?	"இந்த fish-க்கு இப்படி அதிகமா food போட்டா என்ன ஆகும் தெரியுமா?"
6–13s	Close-up of the fish swimming	"Water கெட்டுப்போகும், fish sick ஆகும். Fish valakura எல்லாருக்கும் இந்த rule தெரியும் — correct food, clean water, correct timing."
13–20s	Back to Coach	"ஆனா நம்ம body-க்கு? Late night dinner, மூணு cup tea, water குடிக்கவே மறந்துடறோம். Fish-க்கு போடுற rule கூட நமக்கு நாமே போடுறதில்ல."

Time	On screen	Coach Muthu says

> Do not actually drop extra food into the tank. Hold it above the water and cut before it falls.

Ad 3 — City: "நம்ம [ஊர்]-ல எல்லாமே best. ஒண்ணு தவிர."

The insight: people are proud of their city — its landmark, its food, its jobs. The same city life is quietly wearing their bodies down. When Coach walks through places they know, he is saying "I am one of you." **Where:** a walk-and-talk across four spots, ending at the centre door.

Time	On screen	Coach Muthu says
0–6s	Spot 1: in front of the city's most famous landmark. Hook text: நம்ம [ஊர்]-ல எல்லாமே best. ஒண்ணு தவிர.	"[ஊர்] மக்களே! நம்ம [ஊர்]-ல எல்லாமே best — [landmark], [famous food], நல்ல job. ஆனா ஒரு விஷயத்துல மட்டும் நாம பின்னாடி இருக்கோம்."

NEUROSCIENCE | why the brain says yes

Why a dog, a fish and our own streets work: each one is a pattern interrupt that stops the scroll, and each one turns back on the viewer — "I care for my pet better than for myself", "I know my city, and this coach is one of us". The brain pays attention to what is familiar and what is about "me".

META AD SAFETY

Meta sometimes flags lines that promise medical outcomes. If an ad is rejected for the "hospital visit" line, swap it for: "நம்ம family healthy-ஆ இருக்க என்ன பண்ணணும்னு". Never use before-and-after photos, kilo promises or income claims in ads.

12 The system we run

What ProfitSoul builds and operates behind the scenes

1. **Meta ads:** Click-to-WhatsApp campaign, 6 km radius around the centre (widened to 10 km if needed), ages 25–55, all three ads in one ad set so Meta finds the winner.
2. **WhatsApp qualification flow:** 9 button questions in about one minute. Every number is a real WhatsApp user, which answers your need for verified leads.
3. **Lead scoring:** each lead is tagged Hot, Warm or Cold. Hot leads are called first and get your personal one-on-one on Day 3.
4. **CRM pipeline:** every family's stage, notes and Score Card in one place (VimanaOS).
5. **Telecaller workflow:** call scripts, a call log and daily call lists.
6. **Automated reminders:** 8 WhatsApp messages per cohort, timed to the 3 days.
7. **Weekly report every Monday:** the numbers below, and what we change next week.

The 9 qualification questions

#	Question	What it tells us
1	உங்க பெயர்?	Personalisation
2	உங்க area / pincode?	Inside 10 km or not
3	நீங்க என்ன பண்றீங்க? (IT / Corporate · Business · Student · Homemaker · Other)	Work condition
4	உங்க வேலை நேரம்? (Day · Night / rotational · Work from home · Flexible)	Lifestyle and the best session time
5	இப்போ உங்களுக்கு முக்கியமான health concern? (Weight · Energy · Sugar or BP in family · Sleep · Just a check-up)	Health history and motivation
6	உங்க stress level 1 முதல் 5 வரை?	Stress and emotional level
7	Day 3 health check-க்கு குடும்பத்துல எத்தனை பேர் வருவாங்க?	How many walk-ins this family brings
8	இப்போ health-க்கு (gym, diet, doctor) மாசம் எவ்வளவு செலவு பண்றீங்க?	Spending capacity, asked gently
9	Health coaching-ஐ part-time-ஆ செய்யறதுல interest இருக்கா?	Future associate — tagged quietly, never pitched in ads

13 The numbers we track

Every Monday, per cohort

Measure	Target
WhatsApp leads per week	40 or more
Welcome call within 15 minutes	70% or more
Group join rate	80% or more
Day 1 attendance (of the group)	40% or more
Day 3 families booked	10 (the limit), plus a waitlist
Day 3 show-up rate	80% or more
People per family at Day 3	3 or more
30-day enrolments per cohort	3 or more
Paid (₹2,000) families after the free 10	Tracked from Cohort 1
Ad cost per Day 3 family	₹400 or less
Google reviews per cohort	5 or more

What 10 families a week means for your centre: around 30–40 people walking in every weekend from the free cohort alone, plus paid families, Day-30 re-checks and referrals — which together build towards your 5–10 walk-ins a day.

Running costs (paid directly, outside our fee)

Item	Minimum	Recommended for launch
Meta ads	₹200/day (₹6,000/month)	₹500/day (₹15,000/month)
WhatsApp Business messages	About ₹500/month	About ₹500–800/month
Telecalling at ₹10 per call	₹1,000 (100 calls)	₹2,000 (200 calls)

We recommend ₹500/day for the launch week so we learn fast, then we decide the budget on real numbers at the first review.

14 Who does what, and what happens when

Roles, assets and timeline

Who	Responsibilities
Coach Muthu	Your story, the welcome video, the ad shoot, both Zoom sessions, Day 3 one-on-ones, programme prices
Centre team	Day 3 measurements, Score Cards, breakfast tasting, recording corner, consent forms
Telecaller	Welcome calls within 15 minutes, live slot confirmation on Day 2, reminder calls, follow-up calls, the call log
ProfitSoul	Ad editing and the Meta campaign, WhatsApp flow and reminders, CRM and lead scoring, Zoom slides, weekly report and improvements

What we need from you

- Your personal story — a voice note or a document: where you started, your turning point, why you coach
- A 60-second welcome video for the WhatsApp group
- Two or three client stories with their consent — including the 57-year-old client and a client who travels 40–50 km
- Photos of the centre, inside and outside, and the Google Maps pin
- The area name, a landmark near the centre, and the four city spots for Ad 3
- A friendly dog and an aquarium for the shoot
- Your analyser model, so the Score Card shows the right measurements
- Prices for the 30-day challenge and the 10-day programme
- The Zoom time you prefer (we suggest 6:30–7:30 AM) and a Zoom licence that allows 60-minute sessions
- Access to Meta Business Manager, the ad account and the WhatsApp Business number
- Your telecaller's name and number

Timeline

Date	Milestone
Thu 22 Oct	Blueprint shared; assets requested
Fri 23 Oct	Ad shoot and edit; WhatsApp flow, CRM and Zoom set up; ads go live
Sun 25 Oct	Instalment 1 — ₹10,000
Thu 29 Oct	Cohort 1 — Day 1 on Zoom
Fri 30 Oct	Cohort 1 — Day 2 on Zoom, live slot booking
Sat 31 Oct – Sun 1 Nov	Cohort 1 — Day 3 at the centre
Mon 2 Nov	First review call and weekly report

Date	Milestone
Deepavali week (around 8 Nov)	Lower ad spend; no cohort that weekend
10–15 Nov	Instalment 2 — ₹10,000
12–15 Nov	Cohort 2 — "Deepavali-க்கு அப்புறம் Reset"
From 19 Nov	A new cohort every week, and a new ad every week from Day 3 recordings
Mid-December onward	A smaller copy of this system for your first-line leaders, so they get walk-ins near their own homes

A closing word

Coach Muthu, you already have the hardest part: real results and a centre people travel 40–50 km to visit. This system makes sure the families five minutes away find you too — and that you get your mornings and evenings back while it runs.
